Gemini (May 21 – June 21) June 2010 Overview

You are really receptive to new influences on the 1st & 2nd, so open your mind and let the universe come on in! You could come up with all kinds of new solutions to life's trickiest questions this month. Try your best to slow way down so you don't burn out on the 3rd, 4th & 5th. After all, you're getting so creative right now that you really need all your strength! On the 10th, it's party time: After all, you've got plenty to celebrate! You are in for some very good, very brainy days on the 14th, 15th & 16th. Your keyword? Debate! You are pretty honed-in on issues of health on the 21st. That's true on the 22nd, too. You just want to make sure everybody around you is doing everything they can to keep sound of body, soul & mind. And they really, really appreciate it! They learn plenty from your good example, too. Who is that mysterious stranger with the intriguingly unconventional viewpoint on the 28th & 29th? You'd better do your best to find out, because this person could really change your life for the better. Wrap the month up by clearing up a misunderstanding on the 30th.

Cancer (June 22 – July 22) June 2010 Overview

There are times when a big smile — or bursting into tears — is the absolute best way to convey your message. There are other times, like on the 1st & 2nd, when it's a way better idea to put whatever it is you want to say in cold, clear, argumentative terms. Sure, you might spur a debate with your unconventional approach. But it's a debate you can win. An emotional standoff, however, isn't necessarily going to end up going your way. By the 4th & 5th, you've soaked up more good energy than a solar roof in June, & you're ready to share the wealth. You'll light up more than one bulb with all your bright ideas! You're feeling just an itty bitsy bit irritable on the 10th & 11th. Why not just excuse yourself early and get in some much-needed 'you' time? You have a couple of outrageous ideas on the 14th, 15th and 16th. So why haven't you acted on them, already? By the oh-so-intense-in-every-way 21st & 22nd, you could be in for some super-serious changes. Are you rethinking your job? Your relationships? Your choice of apartment? Your core values? Your favorite foods? All of the above? Enjoy it! Hard work pays off on the 28th & 29th. So work hard.
